FLOORING INSPIRATION

In architecture
'small changes' do
change everything.

Clara Tompieva

FREE RIBA ACCREDITED CPD

presentation worth
1hr 30mins of CPD
development credits

What to consider when specifying fibre bonded carpet tiles?

This CPD presentation will address the challenges facing specifiers when looking for a suitable floorcovering in the contract environment.

The learning module will define the contract environment and the key requirements when choosing a carpet. It will be highlighted why fibre bonded carpets match the performance expectations by illustrating the features and benefits of fibre bonded along with the manufacturing process.

The second phase of the learning module reviews the installation and maintenance of fibre bonded carpets along with the health and safety benefits including conformity to the 2010 Equality Act.

Learning module three discusses the environmental challenges that face everyone today and how this impacts flooring choices

The presentation is approximately one and a half hours in length with a **FREE** light lunch provided. We can also deliver the presentation at your premises or at our Yorkshire based factory, which includes a detailed tour of the site if required.

ARRAY

ARRAY

BROADRIB

An abstract geometric pattern composed of overlapping squares in three colors: a vibrant blue, a deep purple, and a bright orange. The squares are arranged in a way that creates a sense of depth and movement, with some squares appearing to be layered on top of others. The pattern is set against a white background.
